## Publishing Services

School Solutions is an experienced K-12 product development team focused on creating the best materials available. Whether you require a specialized activity set or complete program, count on School Solutions to deliver a tailored solution.

**Elegant solutions to complex challenges**

Since our inception in 2000, we've successfully produced relevant and timely Pupil and Teacher materials across the curriculum.

We offer:

- Integrated print and multimedia product editorial and design;
- State-specific products and services;
- Scope and Sequence development;
- Standards document correlations;
- Clear, thoughtful test-items;
- Practical insight and knowledge of teacher needs and expectations.

**Not just answers. Solutions.**

## EDITORIAL

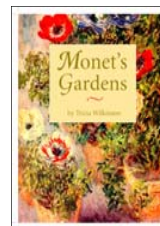

Our writers and editors are accurate, practical, and fast, making required content accessible and easy to understand for both students and teachers. Many of our writers *are* teachers—and advanced degree holders in their areas of expertise. We also work with award-winning children's authors, journalists, screenwriters, textbook editors, subject-area experts, and curriculum developers.

**Outstanding writers and editors**

This talented group comprises a wide range of skills. If you need a powerfully told story, an engaging basal text, or a memorable video narrative, our writers and editors are up to the challenge.

## DESIGN & PRODUCTION

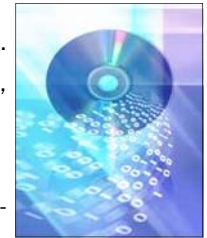

**Beautiful... and practical**

We are proud to offer aesthetic creative design and rigorous production standards. Our designers are certified experts in Quark XPress, Adobe InDesign, and state-of-the-art distributed production techniques.

As a results-oriented product development team, we understand the importance of working within budgets and meeting schedules in multi-stage production environments.

## TECHNOLOGY

School Solutions programmers deliver superior results. Whether it is PHP, XML, Java, or Flash, we speak the language. Develop SCORM-compliant e-learning communities, active presentations, interactive textbooks—on time and on-budget. Integrate systems, unify brand identity, and speak directly to specific learning audiences.

**Skilled programmers**

## APPROACH

Our hardworking team maintains focus on our clients' needs. We listen carefully before implementation and remain flexible and responsive throughout the development process.
